

# Sheikh Mainul Islam

AI Automation Specialist | n8n Workflow Builder

Email: sheikhmainul@gmail.com | Location: Bangladesh | Portfolio: GitHub Pages

## Professional Summary

AI Automation Specialist with hands-on experience building real-world automation systems using n8n, Gmail, Google Sheets, and AI APIs. I design secure, client-owned automations that auto-reply to leads, log conversations, handle errors, and reduce manual workload for consultants and coaches. Focused on practical, production-ready systems rather than theory.

## Core Skills

- n8n Automation (Triggers, HTTP APIs, Error Handling, Logging)
- AI Prompt Engineering & AI API Integration
- Gmail Automation & Email Auto-Reply Systems
- Google Sheets CRM & Workflow Automation
- Debugging, Testing & Monitoring
- Client Onboarding & System Documentation

## Key Projects

### AI Email Auto-Reply & Lead Management System

- Automatically reads incoming emails and sends AI-generated professional replies
- Logs all conversations into Google Sheets CRM
- Prevents duplicate replies and sends error alerts
- Built using n8n, Gmail, Google Sheets, and AI APIs

## Tools & Technologies

n8n (80%) | AI Automation (75%) | Google Sheets Automation (85%) | Gmail Automation | HTTP APIs | Workflow Design

## Work Style & Ethics

- Client-owned infrastructure (no password sharing)
- Secure, transparent, and scalable automation design
- Clear documentation and client-friendly SOPs

## Availability

Open to freelance projects, long-term automation support, and system improvement engagements.
